DESCRIPTION

This is a list of senior decision makers and administrators in the public health system. A-ZGovBIZ HEALTH targets administrators and managers.

This database reflects the size and complexity of Australia's health system and the complex labyrinth of area health services and health related government departments, bodies and services.

Our health sector data is sourced from A-ZGovBIZ - a database of key decision makers at all levels of the public sector. Contacts can be selected by job function, number of employees, level of seniority, metro and country areas.
